

UL College of Engineering
Engineering & Technology Week 2015
Undergraduate Student Presentation Contest
Monday, March 9, 2015
Sponsored by E. R. DesOrmeaux, PE, F. ASCE

STUDENT NAME _____ **CLID** _____

The above listed student is entering the 2015 Undergraduate Student Presentation Contest for the UL College of Engineering's Annual Engineering & Technology Week.

The rules of the contest require that each student obtain submission approval from a Faculty Member of the department in which that student is enrolled as an Engineering or Industrial Technology Student. The faculty member is only required to approve or reject the student's participation and grant the student approval to make the presentation. The faculty member may reject a student's request for any appropriate reason(s).

THE STUDENT PRESENTER WARRENTS ONE OF THE FOLLOWING:

- The material submitted to be presented is my own work (abstract and PowerPoint), and no others are responsible for its preparation.
- The material submitted to be presented pertains to a topic where I was part of a collaborative team, as an employee or other association. I have clearly identified all participants, parts of the presentation prepared by others, and research performed by others. All charts, diagrams, calculations, etc. made by others are clearly identified as to its author.

AND WARRENTS ALL OF THE FOLLOWING:

- Any other person, including another student or a faculty member, has made no editing of the abstract or accompanying media presentation.
- The presentation has not been published or previously presented (exceptions being any presentations made during UL Student Chapter functions and/or UL class project presentations).
- The presentation is not being presented by any individual on behalf of a public or private organization.
